

Display Box Set-Up Instructions

1. Remove the display box from any shipping containers and discard shrink-wrap packaging, if any.
2. Open the box top.
3. Re-fold the box top to cause the perforations to separate.
4. Slide the front tab into the rear of the box.
5. Using tape or similar adhesive, secure the rear of the box top to the base of the box.
6. Your finished display box should now self-support and is ready for placement.
